CONDITIONS & RULES**

Gold Coast City Council (Council) manages 8 cemeteries in the Gold Coast City.

Council has a Local Law & Subordinate Local law for Cemeteries which sets out conditions and rules that affect the cemeteries and those who enter them. If you'd like a copy of this please contact Council.

The Applicant and Burial Right Holder must comply with all rules or regulations which may apply to the operation of the cemetery. Council may vary its rules and regulations at any time and in any manner it deems appropriate.

1. Council is responsible for the administration, maintenance and appearance of Council's cemeteries.
2. Council may grant a request to pre-purchase burial rights for a plot if satisfied that there is sufficient land available in Council's cemeteries.
3. If a request to pre-purchase burial rights for a plot is granted by Council, the person may, at any time during their lifetime, provide a written notice to Council nominating the persons whose bodies or ashes may be buried in the plot.
4. If no human remains (including cremated remains) are buried or interred in the plot within 25 years after the day the burial right is given, Council may revoke the burial right.
5. The person may relinquish the burial rights for the plot back to Council for a price determined by Council.
6. After the death of the person, Council may permit a descendant or relative of the person or the ashes of a descendant or relative, to be buried in the plot, if there is sufficient room for more than 1 person to be buried in the plot.
7. Under no circumstances is a person permitted to enter into a gravesite to carry out works without written approval from Council to ensure compliance with the code of practice for entering a confined space.
8. The scattering of ashes (cremated remains) is NOT permitted in any of Council's Cemeteries without prior approval.

LAWN & LAWN BEAM SECTIONS:

10. Lawn sections cater for burials where a monument or a grave surround is not permitted. A memorial tablet or plaque is placed on a gravesite or on a concrete beam in accordance with Council's Local Law and the remaining gravesite surrounds are turfed.
11. Council is responsible for the care and maintenance of graves in lawn sections. Trinkets, wooden crosses and other monuments are not permitted in this section.
12. All plaques and bases for lawn cemeteries must be installed by Council. Granite/marble bases for lawn graves may be supplied by monumental masons (provided bases are to Council's specifications). "Form 7" should be completed and forwarded to Council outlining required details of the plaque and base together with payment of the scheduled permit fee.
13. Memorial plaques can be purchased through Council. Council supplies bronze memorial plaques due to its long lasting qualities.

I wish to have a tribute notice published on www.heavenaddress.com and acknowledge my contact details may be provided to the web content owner for the purposes of verification required on any information provided to or on the site.

Signature: _____ Date: _____

PLEASE NOTE: Council acts in good faith when it relies on advice provided by applicants and does not accept any responsibility for allowing a burial that might be the subject of a later dispute between family members. The personal information collected on page 1 of this form is used in the collection of personal information in accordance with Council's Local Law 13. Unless you have otherwise authorised, this information will only be used for the creation of a burial/interment record in Council's cemetery database. The information collected will only be used by authorised Council officers or other persons authorised by Council or legislation.

However, these plaques will exhibit signs of natural ageing or may be affected by the elements and environment. The resultant changes should not be confused with faulty workmanship.

14. Plaques can be restored to their original condition at the expense of burial right holder, family or descendants.
15. Breakable vases, glass jars, statues, ceramic and metal containers are not permitted to be left in lawn sections. For occupational health and public safety reasons such items will be removed without notice. Families may supply their own vases provided they are made of non-breakable material such as plastic or copper and have a spike on the base to stop them tipping over.
16. Council supplied plastic vases are available at distribution points in cemetery lawn sections.
17. Decaying flowers will be removed without notice.

MONUMENTAL SECTIONS:

18. The construction of a monument or headstone in a monumental section requires Council approval. An application form (Form 6) should be completed and forwarded to Council outlining proposed details together with payment of the scheduled permit fee.
19. Council accepts no responsibility for the maintenance of any monument that may be constructed on the grave. The monument will always remain the responsibility of the Burial Right Holder or his or her family and descendants. Council reserves the right to remove any monument (after due notice to family or descendants) if and when the condition of which renders it dangerous to cemetery staff or visitors.

ASHES SITES: Columbarium Niche Wall / Memorial Gardens

20. Council may grant a request to pre-purchase ashes sites if satisfied that a niche or memorial garden is available.
21. A pre-purchased site may be relinquished to Council at a price determined by Council.
22. Council shall maintain a niche or memorial garden for a period of seventy (70) years from the time it is first used for the disposal of ashes. After the expiration of seventy (70) years Council may remove a niche and demolish a columbarium niche wall or memorial garden. Unless claimed by a descendant of the deceased person, Council shall bury free of charge, the contents of niches and inscription plates in a general Garden of Remembrance. The niche will then revert to Council.
23. If the ashes of a person are at any time removed from a niche by a representative of the deceased person, the niche reverts to Council.
24. Fresh flowers only to be placed in memorial gardens.
25. Council supplied plastic vases are available at distribution points in lawn sections of a cemetery.
26. Decaying flowers will be removed without notice.
